RESPONSE TO AMENDMENTS

1. Applicant's arguments, see Remarks, filed 11/10/2009, with respect to claim objections and 112 rejections have been fully considered and are persuasive. The claim objections and 112 rejections of the previous office action have been withdrawn.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the instant application discloses a method and apparatus for maintaining synchronization Tracking in Time Division Duplex (TDD) Wireless Communications. A search of prior art records has failed to teach or suggest, alone or in combination:

“A method¹ of maintaining Synchronization Tracking in Time Division Duplex (TDD) Wireless Communications, the method for use in a terminal of a user equipment (UE) system, wherein the method comprises:

dividing a midamble into two parts, then detecting a first part and a second part of the midamble, respectively;

performing an auto-correlation property operation between the two parts and a part corresponding to a local midamble;

obtaining two peaks from the auto-correlation property operation; comparing the amplitude of the two peaks; and advancing or retarding a local timer based on a result of the comparison” (Fig. 6; pg. 5, lines 4-12; pg. 6, line 21-pg. 7, line 8) as disclosed in claim 1.

“A terminal of a user equipment (UE) system in Time Division Duplex (TDD) Wireless Communications, wherein the terminal comprises:

a divider for dividing a midamble into two parts;

¹ The steps of the method disclosed inherently imply a particular apparatus, i.e. “advancing or retarding a local timer” for performing the method.

a dot product unit which performs an auto-correlation property operation between the two parts and a part corresponding to the local midamble to obtain two peaks that correspond to the midamble parts;

a comparator which compares an amplitude of each of the two peaks; and

a local timer which is advanced or retarded based on a comparison of the amplitudes of the two peaks”(Fig. 6, pg. 5, lines 4-12; pg. 6, line 21-pg. 7, line 8) as disclosed in claim 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

CONCLUSION

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

a.) Bultan et al. discloses dividing/splitting a preamble, performing a correlation on the parts of the preamble and detecting a peak in Fig. 3 of US Patent 7,006,840 but has filing data after the filing date of the instant application.

b.) Bultan et al. discloses dividing/splitting a preamble, performing a correlation on the parts of the preamble and detecting a peak in Fig. 3 of US Patent 7,603,133 but has filing data after the filing date of the instant application.
